United Way begins second campaign

(This part of an article which appeared in the Herald News)

Residents of the county will see those red yard signs, United Way, as the campaign to get volunteer contributions from employees through payroll deductions is underway or if someone just wants to make a contribution.

United Way of the Ohio Valley is working to advance the good by serving our long term partner agencies with a focus on education, income, and health which are the building blocks for a good life.

United Way raises money for organizations and charities in a least expensive way than if they did the fund-raising themselves.

Residents who contribute may designate to whom their money will be given.

This is the second year of the campaign in Breckinridge County.

Shop at Home – 2009

The Breckinridge County Chamber of Commerce will be promoting "Shop-At-Home" within our local community during this year's holiday season (November 15 – December 25). The Board has decided to run several advertisements in the local newspaper, radio and on the Chamber website (www.breckinridgecountychamberky.com).

We are seeking our members' assistance in one of our initiatives. If you are an employer who will be giving Christmas bonuses this year, we ask that you consider giving a portion of it to your employees in \$2 bills and asking them to spend it in the local economy. The purpose of this program is to raise awareness in our community regarding how valuable it is to spend money locally. The \$2 bill is rarely used as currency anymore. If employees start spending it in our community, many people will actually "see" the significance of local spending and talk about it. This program is an easy way to illustrate the power of local people spending their dollars inside Breckinridge County.

If you are interested in participating in this program, we ask that you contact the local chamber office at 270-756-0268. We will be glad to answer any questions you may have.

The only way this program will work is if we can get several of our members to participate.

Why Did We Construct the Flag Monument?

In 2003, we purchased this home and the land that would eventually become Patriots Pointe, sitting high atop the bluff over-looking Rough River Lake. We spent many hours thinking about what to name this new development and how to share this glorious place with future home-owners and neighbors. In 2003 the conflict in Iraq had begun, we had one son already deployed, 3 nephews in active service

and 21 family

members in total since WWII that have served our country (including Charlie).

As we pondered a name, we often thought of how their sacrifice and that of so many veterans before them, allowed us to freely enjoy this new home. So, Patriots Pointe was named and the idea for the flag monument was born. (At the time we didn't intend it to be so big!) In early 2005 when my father was losing his battle with bone cancer, he spoke proudly of his service as a Combat Engineer in the U.S. Army's 95th Infantry Division under Gen. George S. Patton. At the end, Dad talked of how sorry he was that he wouldn't live to see the completion of the monument. I told him not to worry, that we'd put up a flag so big he could see it from heaven. I do believe that he can! When you recall this flag, remember to THANK a service man or woman for their time and sacrifice. Enjoy! *Cathy Corbett*

FREQUENTLY ASKED QUESTIONS

How big is the flag? The Summer flag is 40' x 60' (2400 sq. ft.) and weighs 48 pounds.

How high does the flag pole rise above the ground? 100 feet.

The pole is 110' long in total, welded onsite in 3 sections and was raised with a crane. The flag is flying at approx. 800 ft above sea level.

What supports it? The pole sits in a steel cylinder that extends 12' below ground. The cylinder sits in 26 cubic yards of concrete. The flag pole and foundation in total weigh approx. 55 tons.

What is it made of? The pole is made of carbon steel and manufactured by Baartol Co. in Kenton, OH. The flag was manufactured by Annin & Co., the oldest and largest manufacturer of flags in the United States.

(www.Annin.com) Annin has made flags since the 1820's in the U.S.

How much wind can it withstand? The pole is rated for up to 90 mph sustained winds as mounted with the 40' x 60' flag.

How will it be flown? In accordance with Federal guidelines. As such, the flag will be at half-mast from sunrise until noon on Memorial Day, at which time it will be raised to full mast and remain thereafter.

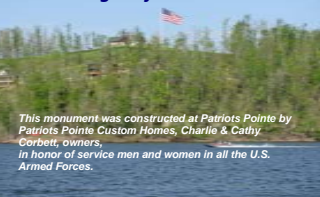

Fun Facts:

- 1) The flag is flown 24 hrs/day, year round.
- 2) The Stars on this flag are 16" point to point.
- 3) The monument is illuminated at night with 4000 watts of light.
